

Supporting Family Members of Loved Ones in OnTrackNY After Discharge

Being discharged from treatment programs like OnTrackNY can feel scary, and sometimes helping your loved one with this transition may be difficult. Researchers at NYU Langone are partnering with OnTrackNY to see how we can better support family members of individuals who have been discharged from OnTrackNY.

Who is Eligible to Participate?

- Family members (including chosen family members) of an individual discharged from OnTrackNY since January 2022
- Family members must be 18 years old or older and speak English or Spanish

What is Participation Like?

- Family members will be invited to participate in three 30-minute phone interviews with the research team
- Family members will be paid up to \$150 for their time
- Family members will receive individual support by telephone for approximately six months and receive a comprehensive list of community services
- Half of the family members will receive support immediately; the other half will receive support in about four months

For More Information

To learn more about the study or to enroll, please contact Nicole Davies (Nicole.Davies@nyulangone.org) and/or talk with your OnTrackNY providers.
